

Awards Management Case Study

Cindy Foley
Program Manager
National Association of The Remodeling Industry

How many award submissions do you receive?

Between our national program and chapters we average over 900.

How many judges are involved, and rounds?

There are normally 200 judges involved and 22 rounds between our national program and the chapters' programs.

What is your staff size?

There is one admin for each chapter and I'm the internal staff member to administer the National program.

What Was Your Biggest Challenge?

When we came to OpenWater our goal was to let our chapters use OpenWater's Application and Review platform. Through OpenWater we enabled our chapters to have their own admin giving our local chapter groups the ability to manage their own awards program while also coordinating entries to the national program.

We've also further streamlined our judging and scoring process with OpenWater and appreciate the reporting features offered that enable us to keep tabs on our progress.

Why Did You Choose OpenWater?

We chose OpenWater because we needed an online platform to manage our tiers and chapter level awards programs in conjunction with our national program.
